Sackville Youth Soccer Association

The Sackville Youth Soccer Association (SYSA) provides a comprehensive instructional and recreational soccer opportunity for both male and female players of all ages. For young children, fun is emphasized as players learn soccer skills in parent-supervised mini games. For youth players, the emphasis is to provide a safe, well-organized and progressively competitive environment for the development of soccer skills.

The rapid growth of interest in women's soccer is a particular feature of SYSA's program. Girls play on mixed teams up to the "10 and under" level. Thereafter, both boys and girls levels offer an excellent program run separately with opportunities to compete at the local and provincial level. **Call Ross Thomas 536-2908 for more information.**
