

Silver Lake

Water always attracts people, and Silver Lake is no exception. There are always people present, walking their dogs, playing in the playground, canoeing in the spring and fall, or skating when the ice is thick enough. I find it is one of Sackville's neglected marvels - one that we should pay a lot more attention to. It still, at least some of the time, allows loons to nest - the symbol of Canadian wilderness right here in our community.
