

**Nomination for 7 Wonders of Sackville**  
**Sackville Waterfowl Park/Tantramar Wetlands**  
**by Katie Tower**

I would like to nominate the Sackville Waterfowl Park as one of the 7 Wonders of Sackville.

This 55-acre park in Sackville's downtown is a "jewel" in this community, a place where both visitors and townspeople can go to experience the beauty of nature and enjoy a peacefulness that doesn't compare to any other place in town. I take my children there often in the spring and summer and they love strolling along the boardwalk, checking out the ducks and their ducklings, the muskrats gliding along the water and they enjoy listening to the different bird sounds throughout the park, not to mention the various plant life that exists there. It's a fabulous place that families can enjoy while also getting active.

This nomination would not be complete without mentioning the Tantramar Wetlands at TRHS, where my children have gone many times to do some critter dipping and treasure hunting as well as make their own sparrow boxes. This is such a valuable educational resource for this community!!!
